**VINATRONICS ANSI 107 & ANSI 207 High Visibility Apparel Compliance Certificate**  
**Vinatronics High Visibility Apparel Products meet or exceed the written requirements for ANSI 107, ANSI 207, NFPA “FR”, ASTM “FR” and/or 70E Arc as labeled. (For our complete written warranty, see catalogue page 5)**

Vinatronics, a Seattle, Washington OEM manufacturer of quality “Made in the USA” Hi-Visibility Apparel Products including OSHA/MUTCD/ANSI Class 1, 2, and 3 Safety Vests, T-Shirts, Sweatshirts, FR Electricians / Welding products, Public Safety products, Jackets and specialty gear certifies that **All Vinatronics Products AS LABELED** meet the written requirements as stated in the **American National Standard Institute (ANSI)107-2010 and/or 207-2011** as either ANSI-Style or ANSI Compliant High Visibility Performance Class 1, 2, 3, as identified on our flyers, catalogue pages, and labels. Select Welding, Electrical and Fire Service Products as labeled also meet Flame Resistant requirements as stated in the **National Fire Protection Association (NFPA) 701, American Society for Testing and Materials (ASTM) F 1506 with 70E Arc Ratings (ATPV)** as labeled.

All relevant fabric and reflective raw materials have been 3<sup>rd</sup> party tested per the listed **(ANSI), (NFPA), or (ASTM)** independent 3<sup>rd</sup> party test requirements under this certificate and are maintained on file in our office in Seattle, Washington USA.

Vinatronics, as a “Made in the USA” OEM manufacturer, certifies that **All VINATRONICS PRODUCTS AS LABELED** and made by Vinatronics, meet the design requirements and have been measured for the appropriate amount of visible reflective material and background material for the sizes offered in the catalogue for **VINATRONICS PRODUCTS AS LABELED** as follows:

Background Material:	Reflective
Class 1: 217 sq in	Class 1: 155 sq in
Class 2: 775 sq in*	Class 2: 201 sq in
Class 3: 1240 sq in	Class 3: 310 sq in
Class E: 465 sq in	Class E: 108 sq in
Headwear: 78 sq in	Headwear: 10 sq in

Design measurements are by Vinatronics personnel using accepted “Good Manufacturing Practices”. For more information on specific standards and product characteristics, see the Vinatronics “Technical Briefs” on catalogue pages 58 to 70, our Limited Warranty on catalogue page 5, or our website at [www.vinatronics.com](http://www.vinatronics.com)

**All information of any kind presented to the Customer in support of this certificate, including, but not limited to the Vinatronics suppliers and 3<sup>rd</sup> party testing, is for the sole use of our distributor partners and end user customers, and may not be shared with any outside party. A written confidentiality Statement is required to review supporting Vinatronics test data.**

**We appreciate your business.** Vinatronics Distributor Partners and End User Customers may keep this certificate on file as needed to show compliance. Thank you for your support of our quality “Made in the USA” High Visibility Apparel Products.

\* ANSI 207-2006 Public Safety Standard requires only 450 square inches of Background for flexibility of design.
